

Aspen Falls Spa Leaflet

Spring is here and everyone is getting back outside. For all you bikers, hikers, campers or anyone with back stress, we have a fabulous treatment for you. Our **Stress Back Pack Release** is a targeted treatment for chronic tension in the neck, shoulders and back, a life saver for computer users and athletes. A 30 minute focused massage begins to ease your muscles followed by a detoxifying mask of seaweed and aromatic oils under the warmth of a canopy of steam.

1 hour \$ 85

Air Brush Tanning

At our **Castle Pines** location we offer an all natural DHA Sunless tanning spray to get you ready for all the spring fashions and activities. One of our trained technicians will air brush you for a fabulous bronze look. Airbrush tanning is the newest trend for maintaining a safe yet glowing tan. It's a great alternative to tanning beds and sun. **\$25.00**

Mothers Day Special

Ingredients and their effects on Aging skin

When selecting products for aging skin you want to choose active ingredients to get the best results.

Vitamin C is important for creating collagen and support against *free radical damage and strengthens skin tissue.

Peptides are amino acids (proteins) that send a signal that more proteins are needed. They are considered wrinkle minimizers.

Hexapeptides block neurotransmitters that cause muscles to contract and form wrinkles. This peptide is referred to as a wrinkle relaxer.

Retinol (Vitamin A) is for function of skin cells in promoting collagen and elastin improving the skin texture, firmness and smoothness. Prevents *free radical damage, fine lines and signs of aging.

**Free Radicals are unstable molecules that are very reactive and can attach and damage other*
